**Joanne Terry to Challenge 7-term Incumbent Bill Posey  
for US Congress FL-08**

Satellite Beach, FL – Joanne Terry of Satellite Beach, a centrist Democrat, announced her candidacy for U.S. House of Representatives FL-08 on Thursday. Terry is a retired space industry systems engineer and Brevard resident since 2004.

Terry is running for congress because she believes our partisan divide and political discourse is benefiting no one and costing us all. “Bill Posey’s recent behavior and voting record shows he is representing the extreme elements of his national party and not representing the people and needs of our community.” added Terry.

She continued, “Just recently, the Brevard Commissioners raised utility rates to prepare for the expenses of necessary repairs. It’s a problem we all share that’s been a long time in the making. But, when the recent infrastructure bill came up in Congress, not only did Mr. Posey vote against it but unlike many Republicans, he neglected to submit a single project for our district. We pay taxes, too. Florida’s 8th District deserves its fair share.”

Terry is running on a pro-business, pro-people, and pro-environment platform, saying, “I will work across the aisle to represent the needs of our community and work toward finding the right balance between the private (free enterprise) and public (government) sectors that is necessary for inclusive, sustainable, and resilient prosperity for all of us.”

“I will spend the next 10 months traveling throughout our district discussing our local issues and sharing my thoughts on how we can focus on our common goals. When we remember that we're all working for the good of the community, we can address our differences with the respect and civility of a functioning democracy.” Terry concluded.
